

GOLF FUNDRAISER KICKS OFF - VETERANS' HOUSE CANADA ALBERTA CAPITAL CAMPAIGN

Toronto: Fundraising for the Veterans' House Alberta Campaign - *Helping Homeless Veterans* - kicked off at the Canso Charity Golf Tournament. The stunning Eagles Nest golf course hosted players from Canso, Lysander Funds, and other amazing partners.

As a founding partner of Veterans' House Ottawa - Andy Carswell Building, it was only fitting to have John Carswell and the CANSO family launch the Alberta Capital Campaign.

This year's golf event raised over \$60,000 for the [Veterans' House Edmonton project!](#) If you haven't donated yet, we encourage you to do so [here](#). A huge thank you to all of those who donated, and to our generous sponsors: Lysander Funds, Casgrain, Pundit Media, and Curis Media Group.

During the reception lunch, Veterans' House Canada resident Bill Beaton shared the impact every donation has on the lives of at-risk and homeless Veterans. Veterans' House Canada's mission not only provides the critical piece, a home, but it also gives relief to the several months and sometimes even years of uncertainty, insecurity, and instability with the opportunity to carry on with their life within a supportive community.

We'd also like to thank the on-hole sponsors: [Total Rehabilitation and Chiropractic Centre 1858 Caesar Bar.](#)

The Veterans' House Canada team is committed to spreading hope and affordable permanent housing to more cities experiencing increased homelessness amongst Veterans including Halifax, Montreal, Toronto, Winnipeg, Calgary, Vancouver, and Victoria.

We are glad to announce full support from all levels of government on our project within the Athlone community in Edmonton, Alberta. This future home for Veterans will create a rehabilitative community for those at risk and experiencing homelessness beyond Alberta's 7 biggest cities.

About Veterans House Edmonton

Our new building will be similar to our Ottawa home and will feature 40 bachelor units, a social room, a fitness room, a library, a park with a covered barbecue area, a community planting garden, a meditation park, and a dog area.
